

2010 SCACM Telephone Audioconference Series
We Bring the Experts to Your Laboratory!

You can participate by using your telephone or obtain the CD. Either way, SCACM brings the experts to your laboratory. Each SCACM audioconference will be presented twice on a Tuesday at 11:00 am Central Time (CT, Chicago time) and 1:00 pm Central Time (CT). Use this [site](#) to view the time zones map. The call will last 60 - 75 minutes and will have a live Question and Answer session with the expert. Details for each call will be sent by email at least 1 week before each audioconference. Each site will download the conference files from our site. It is easy. Just save the files to your PC. The telephone number used to connect to the bridge is a toll call and not toll-free. Each audioconference will be transferred to a CD, playable on a computer using Internet Explorer web browser and includes the handout and other files. The CD recording costs \$40 each or \$20 when you order the same audioconference telephone call. The recording will available 4 weeks after each call and sent by first class mail. By purchasing the CD, more staff can learn and earn CEU's. Attendees can earn CEU's for up to 6 months after the presentation.

SCACM is approved as a provider of continuing education programs in the clinical laboratory sciences by the ASCLS P.A.C.E.[®] Program.

Sometimes our messages are rejected or deleted by spam filters at some of our site's systems. In order to avoid this from happening, we ask that you or your system administrator "whitelist" our email addresses and websites. These are www.scacm.org , scacm@scacm.org and www.surveymonkey.com. By "whitelisting," we mean setting your email system to always accept messages from all of the above email addresses and websites regardless of any spam analysis of the messages' content. Please bookmark the sites and add the above email addresses to your Address Book. This will make certain that you do not miss any of the valuable information we work so hard to send your way. To test your site, send a blank email to test. You will receive a reply within 30 minutes. If you do not receive a reply then your site is blocking our email and you will need to contact your IT staff. Thank you!

11am CT	1pm CT	January 19, 2010	<i>Laboratory Acquired Infections</i>	Michael Miller, Ph.D.
